

Amendments to the Claims:

This listing of the claims will replace all prior versions and listing of claims in the application. Please add new claims 3-5 as shown.

1. (previously presented): A recording liquid for ink printers, comprising:
colorants;
water; and
fine particles of at least one photo-curable resin and at least two non-photo-curable resins,

wherein

at least one of the non-photo-curable resins is a self-cross-linking resin,
the total solids content of the resin particles is from about 20 to about 80% by weight and
the content of the photo-curable resin relative to the total weight of the non-photo-curable resin and the
photo-curable resin is from about 10 to about 80%.

2. (previously presented): A method for recording images on a recording medium, comprising:
discharging droplets of the recording liquid according to claim 1 from a recording head.

3. (new): The recording liquid according to claim 1, wherein the fine particles are of at least one
photo-curable resin and at least three non-photo-curable resins.

4. (new): The recording liquid according to claim 1, wherein the at least one non-photo-curable,
self-cross-linking resin is an acrylic-silicone containing resin.

5. (new): The recording liquid according to claim 1, wherein one of the at least two non-photo-curable resins is a fluororesin.
